required. 1944 Op. Atty. Gen. 104. See Goodale v. County Commissioners, 277 Mass. 144, 150-152.

With regard to the appointment of persons over seventy under said chapter 32 as it stood before said amendment, it was said by one of my predecessors in office in 1941:

"The provisions of G.L. (Ter.Ed.) c.32 as amended, by requiring employees reaching the age of seventy to withdraw from the public service of the Commonwealth . . . by implication prohibit the appointment to positions in such service of those who have attained the age of seventy."

The legislative intent as expressed in the retirement law with regard to retirement of employees at age seventy was not changed by the said amendment of 1945, chapter 658.

Under the present provisions of said chapter 32, as amended by said St. 1945, c. 658, retirement at seventy for a State employee occupying a position such as that indicated in your letter is required.

Said chapter 658, sec. 3 (2) (f), provides in its applicable parts, with certain exceptions not here relevant:

"No person who originally enters the service of any governmental unit as an employee after attaining age fifty-five . . . shall become a member (of the retirement system) . . . No such employee other than an elected official or a state official as defined in section one shall remain in the service of such governmental unit after attaining the maximum age for the group in which he would have been classified if he had become a member . . ."

Subsection (g) provides that "officials and general employees" are to be classified in "Group A." The phrase "maximum age" as applied to the classification of "Group A" is defined in section 1 of said chapter 658 as "age seventy."

The particular official under consideration is appointed by the Commissioner of Corporations and Taxation (G.L. (Ter.Ed.) c. 14, sec. 4) and is not a "state official" as those words are used in said subsection (f) and so is not included within the exceptions noted therein. "State official" is defined in said section 1 as "any person appointed by the

between Boston and Springfield and also for a local license to be granted by the Department in lieu of the Town of Framingham, under General Laws, chapter 159A, section 3, was filed with the Department on October 2, 1944. Documents purporting to be licenses or evidence of licenses issued under General Laws, chapter 159A, section 1 (Ter.Ed.), were filed with the petition from the cities of Springfield, Worcester, Newton and Boston, and from the towns of Wilbraham, Palmer, Monson, Brimfield, Sturbridge, Charlton, Oxford, Auburn, Millbury, Shrewsbury, Northborough, Westborough, Southborough, Natick, Wellesley and Brookline.

Hearings were held on November 20, December 12 and December 13, 1944, at which these local licenses were attacked as invalid for numerous reasons applicable to one or more licenses. The Department reserved its decision on the question of the validity of these licenses without having heard the merits of either petition.

On January 17, 1945, the Department issued an order regarding the validity of the licenses in question and ordered that the matter stand for hearing on notice to counsel on the application for a license for the Town of Framingham under General Laws, chapter 159A, section 3 (Ter.Ed.) and upon the application for a certificate of public convenience and necessity under General Laws, chapter 159A, section 7 (Ter.Ed.)

On January 23, 1945, A. B. Casson, attorney for Peter Picknelly, doing business as Peter Pan Bus Lines, filed a written communication with the Department withdrawing the petition D.P.U. 7202 without prejudice to the rights of the said Peter Picknelly to renew the same. In view of this request there is no necessity for further action by the Department upon this petition.

Therefore we are of the opinion that this petition should be dismissed without prejudice, and it is

INVESTIGATION RELATIVE TO SERVICE CHARGES
BY GAS AND ELECTRIC COMPANIES.

Senate, July 6, 1933.

ORDERED, That the Department of Public Utilities is hereby requested to inquire into the feasibility and expediency of prohibiting so-called service charges in domestic or household rate schedules of gas and/or electric companies doing business in this commonwealth, and of establishing different or alternative rate structures which will fairly adjust the relative payments which domestic customers should make for the services respectively rendered them. For this purpose the Department may make such investigations as it may deem necessary, and is requested to report its findings with drafts of such legislation, if any, as it deems expedient, to the Senate on or before the first Wednesday of January, nineteen hundred and thirty-four.
